### **DETAILED ACTION**

This case has been transferred from examiner Allan Hoosain to examiner Alam Elahee. After careful review of claims **1-12 and 17-20** examiner has withdrawn the rejection as stated in previous Final Rejection because regarding the argument in the brief is persuasive.

#### ***Reasons for Allowance***

1. Claims 1-12 and 17-20 are allowed.

The following is a statement of reasons for the indication of allowable subject matter:

The prior art Brown fails to teach receiving a request for a caller profile according to an authenticated voice identifier of a caller being currently on hold within a particular call center as recited claims 1, 6, 17 and 19. Since the Brown's prior art is belong to same assignee and same inventive entity, it is not obvious to modify the prior art.

The prior art Uppaluru fails to teach receiving a request for a caller profile according to an authenticated voice identifier of a caller being currently on hold within a particular call center, wherein the caller profile comprises prior on hold selections by the caller while the caller previously waiting on hold at any of a plurality of call centers as recited in claims 1 and 6.

Further, regarding claims 17 and 19, the prior art Uppaluru fails to teach the claimed step of determining subscription status of the call distribution center according to the call distribution center identifier for the request. It is not obvious to modify the prior art to add this feature. Uppaluru does not need to determine subscription status of the call distribution center by using authenticated voice identifier of a caller.
